ings against said insolvent be stayed.

## GRANT'S DEFICIENCY OF AIRS.

Among the more or less imaginative

"personal reminiscences" of our dis-

tinguished guest, with which we are

flooded just now, the following actual

occurrence may be of interest as show-

ing the always striking absence of self-

importance, or "frills," distinguishing

Grant in all relations of life.

The writer of this lived within stone

throw of the White House during both

terms of the General, and drove what

was justly considered as the second or

third fastest horse in the District—a

great point then. The fashionable

drive was what is known as the Soldier's

## MORE BLUNDERS.

The News this morning says: "The law is that previous to giving out contracts for stationery or printing, the Clerk shall advertise for proposals in some newspaper published in the county, and give the work to the lowest bidder. This has never been done, and there have been from one to seven newspapers in this section during the past eighteen months. We are told, and are prepared to prove, that on one occasion Bancroft & Co., who, by the way, act as county printers, wrote to an official in this county that they would allow twenty-five per cent. on all warrants made for payment of stationery accounts. That is to say, the full bill would be put in to the Supervisors, they allow it, and then the official and Bancroft & Co. would divide it *pro rata*. This overture was spurned by the gentleman in question, whose name we are at liberty to use if we do desire. Whether other business of this kind has been done since the case referred to, we are as yet uninform, but have made all arrangements to find out at an early date, when we will publish facts and figures."

The Clerk advertised for proposals in compliance with order of the Board of Supervisors at the meeting of February 3d, as follows:—

"The clerk is directed to advertise in the MONO ALPINE CHRONICLE for sealed proposals for supplying the several county offices with blanks, stationery, etc.; and also for all other supplies required by the county for the Court House and jail. It was ordered that the Clerk advertise in the MONO ALPINE CHRONICLE for sealed proposals for doing county advertising for one year."

At the meeting on March 31, bids were opened, and the minutes read thus:—

"Contract for stationery and blanks was awarded to A. L. Bancroft & Co. Contract for county advertising was awarded to R. M. & A. C. Folger. Contract for feeding county prisoners was awarded to Mrs. Ann Summers."

In seeking information in its endeavor to "unearth fraud and corruption" our cotem. unearths its inherent stupidity in all its undertakings, and the people of Mono county wish some one to hold it until stamps can be put on its ears to mail it to Stockton, as it is a fitting opportunity to have our county represented in that institution.

YORKTOWN CENTENNIAL.—The Governors of the thirteen original States recently met in Philadelphia for the purpose of making arrangements for the proper observance of the centennial anniversary of the surrender of Cornwallis at Yorktown. An address will be issued, asking the Governors of all the States to bring the matter before their people, to have it generally observed throughout the Union. On last the Governors attended Divine service at Old Christ Church, Philadelphia which Washington attended while President. They were seated in the pews which Washington and Robert Morris occupied. The church was decorated with flags and national shields bearing the names of Washington, Morris, Bishop White, Franklin and Francis Hopkiss.

The St. Helena Star says if you want to whip your wife, do it sometime between the 1st and 4th of January. By the grace of God and the new Constitution, there will be no State government to hinder you then. We have no wife whippers in Bodie, but the loving husbands of San Francisco, Sacramento, and other more civilized (?) places will undoubtedly utilize the brief period mentioned.

Thomas Carruthers, an old and respected citizen of Tomales, committed suicide by hanging himself in the barn on his ranch near that place. For several years he had been suffering from an incurable disease, which had affected his mind and led to the rash act. He was a bachelor and left an estate worth \$40,000.

John Pattison, of Nevada, has been granted a patent for an explosive compound that is said to be the most powerful yet invented, and it can be manufactured very cheap, and is as safe as any other good powder.

The Workmen of San Francisco have formed a military organization of seven companies, to be known as the Workmen's Volunteer Regiment.

Col. King, the great Texas cattle man, has a pasture of 337 square miles, which will supply food for 110,000 cattle.

Chicago wants the Republican National convention to meet there next year.

Typhoid fever is raging in Virginia City.

Captain Paul Boynton is coming to California to give swimming exhibitions.

Von Bulow, German Secretary of State for Foreign Affairs, is dead.

The Supreme Court of the District of Columbia, in the case of Adams & Co., Express Company, where they refused to pay full value of packages lost, on the ground that the receipt limited the amount to \$50, decided against the Company as follows:—

"We are of opinion, therefore, that the court instructed the jury correctly, in allowing them to find for the full value of plaintiff's property, notwithstanding the conditions of the bill of lading, if they should find that the loss was occasioned by the gross negligence of the defendant."

THE CHRONICLE.

BODIE, OCTOBER 25, 1879.

TWAIN'S SHIRT.

(N. Y. Commercial Advertiser.)

Mark Twain has arrived in the Galia, after an absence of seventeen months abroad. A reporter interviewed him in this wise:

"You sailed in the same ship with Bayard Taylor and Murat Halstead, of Cincinnati, did you not, Mr. Twain?"

"The same craft, all honor to her—Mr. Twain lifted his hat reverently—carried all three of us."

"It was said at the time that you inveigled Mr. Halstead into making the voyage by promising him the free use of your linen?"

"Well," Mr. Twain spoke leisurely—"I did tell Mr. Halstead that I would lend him a clean shirt. You see, he didn't expect to go. His wife was going, and he'd sort of come down to see her—safely launched. You remember the ship ran away with a party of excursionists who had got aboard to bid poor Mr. Taylor good-bye, and was obliged to anchor off the Hook all night. During the evening Murat sort of got his sea-legs on, and says he, 'Clemens, he always calls me Clemens, says he, 'Clemens, if you'll lend me a shirt I believe I'll go across.' 'All right,' says I, 'I'll do it.' So Murat he fixed things with the captain and stayed aboard."

"We got along pretty well with winds unaiding, about nor-nor-west by son, till we came to latitude 36, longitude 49, and then Murat wanted his clean shirt—that is, he wanted mine. It was about three bells from noon when I took the garment to the door of Murat's stateroom. 'Here,' says I, 'clothe yourself like a prince of the realm.' At eight bells Mr. Halstead came out of his apartment with his coat buttoned up to his chin and his face was as red as a red, red nose. He wore his coat buttoned up to his chin all the rest of the voyage, and never so much as got a glimpse of my shirt. There was a kind of rumor on the ship that Murat never wore that shirt of any other shirt. I don't know how true it was, but when I came to study the thing it did look to me as if I'd put a rather tough problem to the editor of the Cincinnati Commercial, for his neck measures eighteen inches, while mine never footed up more than fifteen, even when I had the mumps."

"MAXIMS FOR YOUNG GIRLS—Never make your appearance in the morning without having first dressed yourself neatly and completely. Keep your clothing, especially under-clothing, in perfect order. Never let pins do duty as buttons, or strings take the place of proper bands. Train yourself to useful occupations. Remember, it is wicked to waste time, and nothing gives such an impression of vanity and absolute silliness, as never having anything to do. If you are in your father's house, take some department of household labor upon yourself, and a part of needlework, and make it your business to attend to it. Do not let a call from his idle girl, or a visit from that, or tan invitation from the other, interfere with the performance of your duty. Let your pleasures come in as recreations, not as the business of your life. If you want to marry, do not court or try to attract the attention of gentlemen. It is better to be a woman than a wife, and do not degrade your sex by making your whole existence turn on the pivot of matrimony."

A farm laborer at Ardleigh, Eng., went to the help of a man who was being overpowered by a lunatic in his charge, and in danger of being killed. He was absent from work an hour and a half, and was prosecuted by his employer for five shillings damages on account of loss of services, and the court decided against him for not getting permission from his employer before going to the rescue of a man who was liable to be killed at any moment.

A doctor attending a punster, who was very ill, apologized for being late one day by saying that he had to stop to see a man who had fallen down a well. "Did he kick the bucket, doctor?" growled the punster.

Paul Boynton's bride, if she takes an ocean in head, besides wanting a watered-silk dress, should have high tide shoes and water waves in her hair, and be thankful if she hasn't a creek in her back.

Tin, which, owing to some reason or other not yet discovered, becomes very brittle and light, can, on the authority of Scherzefel, be made to recover its ordinary color, texture and specific gravity by boiling it in water.

If the sun were not broiling, and the sand didn't get into the salad, and the rocks were soft and smooth, and one hadn't to go three-quarters of a mile for water, what a tame affair a picnic would be!

Colorado is a young State; but she is unrivaled for her big bugs.

However thrilling a play may be it is apt to be dry between the acts.

LIGHTNING SEWER

THE NEW WILSON Oscillating Shuttle SEWING MACHINE

Is wonderful in its conception, unprecedented for doing a large range of sewing in textile fabrics and leather. Its motions are continuous, admitting of extraordinary rate of speed, either by treadle or foot power. Every motion of the treadle makes six stitches, thus producing about one-third more work in a day than other Sewing Machines. It has no stop motions, and tightens the stitch with the needle out of the fabric. It uses the well-known Wilson Compound Feed on both sides of the needle. It has two-thirds less parts than any other first-class Sewing Machine. Its arm is fully eight and one-half inches long and five and one-half inches high, and the whole Machine is very compactly and economically constructed in proportion. Its simple, powerful and perfect mechanism places it as far in advance of all other Sewing Machines as the telephone is superior to the tin speaking tube. The WILSON MENDING ATTACHMENT, for repairing all kinds of textile fabrics WITHOUT PATCHING, furnished FREE with all WILSON SEWING MACHINES, together with a Tucker, Ruffler, Corder, Set of Hemmers, Binder, etc. Prices furnished with freight charges prepaid, and machines furnished on trial to responsible parties, to be used with steam-power, in places where we have no agents. Send for illustrated Catalogue and Price List, No. 230.
